Vietnam Investment Fund Management Joint Stock Company Statement of the Board of Directors

The Board of Directors of Vietnam Investment Fund Management Joint Stock Company ("the Company") presents this statement and the accompanying interim financial statements of the Company for the six-month period ended 30 June 2019.

The Board of Directors is responsible for the preparation and fair presentation of the interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting. In the opinion of the Company's Board of Directors:

- (a) the interim financial statements set out on pages 6 to 59 give a true and fair view of the financial position of the Company as at 30 June 2019, and of its results of operations and its cash flows for the six-month period then ended, in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to financial reporting; and
- (b) at the date of this statement, there are no reasons to believe that the Company will not be able to pay its debts as and when they fall due. The interim financial statements have been prepared on a going concern basis.

The Board of Directors has, on the date of this statement, authorised the accompanying interim financial statements for issue.

On behalf of the Board of Directors

INTERIM FINANCIAL INFORMATION REVIEW REPORT

To the Shareholders Vietnam Investment Fund Management Joint Stock Company

We have reviewed the accompanying interim financial statements of Vietnam Investment Fund Management Joint Stock Company ("the Company"), which comprise the balance sheet as at 30 June 2019, the statements of income and cash flows for the six-month period then ended and the explanatory notes thereto which were authorised for issue by the Company's Board of Directors on 14 August 2019, as set out on pages 6 to 59.

Management's Responsibility

The Company's Board of Directors is responsible for the preparation and fair presentation of these interim financial statements in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting, and for such internal control as the Board of Directors determines is necessary to enable the preparation of interim financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on these interim financial statements based on our review. We conducted our review in accordance with Vietnamese Standard on Review engagements 2410 – Review of interim financial information performed by the independent auditor of the entity.

A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Vietnamese Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Auditor's Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim financial statements do not give a true and fair view, in all material respects, of the financial position of Vietnam Investment Fund Management Joint Stock Company as at 30 June 2019, and of its results of operations and its cash flows for the six-month period then ended in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting.

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

2. Basis of preparation

(a) Statement of compliance

The interim financial statements have been prepared in accordance with Vietnamese Accounting Standards, the Vietnamese Accounting System for enterprises, Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies and the relevant statutory requirements applicable to interim financial reporting. These standards and statutory requirements may differ in some material respects from International Financial Reporting Standards and the generally accepted accounting principles and standards of other countries. Accordingly, the accompanying interim financial statements are not intended to present the financial position and results of operations and cash flows in accordance with generally accepted accounting principles and practices in countries or jurisdictions other than Vietnam. Furthermore, their utilisation is not designed for those who are not informed about Vietnamese accounting principles, procedures and practices applicable to investment fund management companies.

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

3. Summary of significant accounting policies

The following significant accounting policies have been adopted by the Company in the preparation of these interim financial statements.

The accounting policies that have been adopted by the Company in the preparation of these interim financial statements are consistent with those adopted in the preparation of the latest annual financial statements.

(a) Foreign currency transactions

Transactions in currencies other than VND during the period have been translated into VND at rate approximating actual rates of exchange ruling at the transaction dates.

Monetary assets and liabilities denominated in currencies other than VND are translated into VND at the account transfer buying rate at the end of the accounting period quoted by the commercial bank where the Company most frequently conducts transactions.

All foreign exchange differences are recorded in the statement of income.

(b) Cash and cash equivalents

Cash comprises cash balances and call deposits. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash, are subject to an insignificant risk of changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investment or other purposes.

(c) Investments

Investments comprises held-for-trading securities and held-to-maturity investments.

(i) Held-for-trading securities

Held-for-trading securities are those held by the Company for trading purpose i.e. purchased for resale with the aim of making profits over a short period of time. Held-for-trading securities are initially recognised at cost which include purchase price plus any directly attributable transaction costs such as brokerage charge, transaction fees, providing information fee and bank charge (if any). Subsequent to initial recognition, held-for-trading securities are measured at cost less allowance for diminution in value.

An allowance is made for diminution in value of held-for-trading securities if market price of the securities falls below its carrying amount based on promulgation of Circular No. 146/2014/TT-BTC dated 6 October 2014 ("Circular 146") issued by the Ministry of Finance providing guidance of financial system for securities companies and investment fund management companies.

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

For listed securities, securities registered for trading, market price is the transacted price on the Stock Exchanges on the last trading date of securities before the valuation date, in details:

- For listed securities on the Stock Exchanges, market price is the closing price on the last trading date of securities before the valuation date.
- For securities registered for trading (shares registered for trading on UPCOM), market price is the closing price on the last trading date of securities before the valuation date.

For unlisted securities and securities not yet registered for trading, market price is the average of quoted prices provided by three securities companies and transacted on the last trading date before the valuation date but not exceed one month before the valuation date. If there was no trading transaction during that period, the Company made no allowance for diminution in value of held-fortrading securities.

The Company made no allowance for diminution in value of held-for-trading securities if the Company were not able to determine market price of the securities.

Allowance for diminution in value of held-for-trading securities mentioned above is reversed if the market price subsequently increases after the allowance was recognised. An allowance is reversed only to the extent that the securities' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

(ii) Held-to-maturity investments

Held-to-maturity investments are those that the Company's management has the intention and ability to hold until maturity. Held-to-maturity investments include certificates of deposits issued by credit institutions that are hold until maturity. These investments are stated at costs less allowance for doubtful debts.

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(d) Accounts receivable

Trade and other receivables are stated at cost less allowance for doubtful debts.

In accordance with Circular No. 228/2009/TT-BTC dated 7 December 2009 issued by Ministry of Finance, allowance for doubtful debts is made based on the expected losses on undue debts which may occur when an economic organisation is bankrupted or liquidated; or debtor is missing, running away, being prosecuted, in prison, under a trial or pending execution of sentences or deceased or based on the overdue status of debts using the following allowance rates:

Overdue status	Allowance rate
From six (06) months to less than one (01) year	30%
From one (01) year to less than two (02) years	50%
From two (02) years to less than three (03) years	70%
From three (03) years and above	100%

Increase/decrease in allowance for doubtful debts is recorded as expense/income in the statement of income during the period, except when allowance for doubtful debts is used to write off the debts which were made allowance for and unable to recover. An allowance is reversed only to the extent that the receivables' carrying amount does not exceed the carrying amount that has been determined if no allowance had been recognised.

Tangible fixed assets **(e)**

(i) Cost

Tangible fixed assets are stated at cost less accumulated depreciation. The initial cost of a tangible fixed asset comprises its purchase price, including import duties, non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditure incurred after tangible fixed assets have been put into operation, such as repair, maintenance and overhaul cost, is charged to the statement of income in the period in which the cost is incurred. In situations where it can be clearly demonstrated that the expenditure has resulted in an increase in the future economic benefits expected to be obtained from the use of tangible fixed assets beyond their originally assessed standard of performance, the expenditure is capitalised as an additional cost of tangible fixed assets.

(ii) **Depreciation**

Depreciation is computed on a straight-line basis over the estimated useful lives of tangible fixed assets. The estimated useful lives are as follows:

office equipment

6 years

motor vehicles

3 - 6 years

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(f) Intangible fixed assets

Software

Cost of acquiring new software, which is not an integral part of the related hardware, is capitalised and treated as an intangible asset. Software cost is amortised on a straight-line basis over a period ranging from 4 to 8 years.

(g) Construction in progress

Construction in progress represents the costs of software system establishment which have not been fully completed. No depreciation is provided for construction in progress during the period of software system establishment.

(h) Long-term prepaid expenses

(i) Golf club memberships

Golf club memberships are recognised at cost and amortised on a straight-line basis over 10 years.

(ii) Leasehold improvements

Leasehold improvements are recognised at cost and amortised on a straight-line basis over 3 years.

(iii) Tools and instruments

Tools and instruments include assets held for use by the Company in the normal course of business whose costs of individual items are less than VND30 million and therefore not qualified for recognition as fixed assets under the Article 3 of Circular No. 45/2013/TT-BTC dated 25 April 2013 issued by the Ministry of Finance which provides guidance on management, use and depreciation of fixed assets. Cost of tools and instruments are amortised on a straight-line basis over a period ranging from over 1 to 3 years.

(i) Trade and other payables

Trade and other payables are stated at their costs.

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(j) Provisions

A provision is recognised if, as a result of a past event, the Company has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability.

(k) Taxation

Income tax on the profit or loss for the period comprises current and deferred tax. Income tax is recognised in the statement of income except to the extent that it relates to items recognised directly to equity, in which case it is recognised in equity.

Current tax is the expected tax payable on the taxable income for the period, using the tax rates enacted at the end of the accounting period, and any adjustment to tax payable in respect of previous periods.

Deferred tax is provided using the balance sheet method, providing for temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. The amount of deferred tax provided is based on the expected manner of realisation or settlement of the carrying amounts of assets and liabilities using the tax rates enacted or substantively enacted at the end of the accounting period.

A deferred tax asset is recognised only to the extent that it is probable that future taxable profits will be available against which the temporary difference can be utilised. Deferred tax assets are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

(l) Share capital

(i) Share capital and share premium

Ordinary shares are stated at par value. Incremental costs directly attributable to the issue of ordinary shares, net of tax effects, are recognised as a deduction from share premium. The excess of proceeds from issuance of shares over the par value of shares issued is recorded as share premium.

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(ii) Repurchase and reissue of ordinary shares (treasury shares)

When shares recognised as equity are repurchased, the amount of the consideration paid, which includes directly attributable costs, net of tax effects, is recognised as a reduction from equity. Repurchased shares are classified as treasury shares under equity. When treasury shares are sold for reissue subsequently, cost of the reissued shares is determined on a weighted average basis. Any difference between the amount received and the cost of the shares reissued is presented within share premium.

(m) Statutory reserves

According to Circular No. 146/2014/TT-BTC dated 6 October 2014 issued by the Ministry of Finance providing guidance of financial system for securities companies and investment fund management companies, the Company is required to make the following allocations:

	Annual allocation	Maximum balance
Reserve to supplement charter capital Financial reserve	5% of profit after tax 5% of profit after tax	10% of charter capital 10% of charter capital

The purpose of the reserve to supplement charter capital is to supplement charter capital of the Company as approved by shareholders.

The purpose of the financial reserve is to compensate for loss incurred in the course of business, net of amount of loss that is compensated for by insurance companies or individuals causing such loss.

The Company is not allowed to use financial reserve and reserve to supplement charter capital to pay dividends.

(n) Classification of financial instruments

Solely for the purpose of providing disclosures about the significance of financial instruments to the Company's financial position and results of operations and the nature and extent of risk arising from financial instruments, the Company classifies its financial instruments as follows:

(i) Financial assets

Financial assets at fair value through profit or loss

A financial asset at fair value through profit or loss is a financial asset that meets either of the following conditions:

It is considered by the Board of Directors as held for trading. A financial asset is considered as held for trading if:

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

- it is acquired principally for the purpose of selling it in the near term;
- there is evidence of a recent pattern of short-term profit-taking; or
- a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Company as at fair value through profit or loss.

Held-to-maturity investments

Held-to-maturity investments are non-derivative financial assets with fixed or determinable payments and a fixed maturity that the Company has the positive intention and ability to hold to maturity, other than:

- those that the Company upon initial recognition designates as at fair value through profit or loss;
- those that the Company designates as available-for-sale; and
- those that meet the definition of loans and receivables.

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market, other than those:

- that the Company intends to sell immediately or in the near term, which are classified as held for trading, and those that the entity on initial recognition designates as at fair value through profit or loss:
- that the Company upon initial recognition designates as available-for-sale; or
- for which the Company may not recover substantially all of its initial investment, other than because of credit deterioration, which are classified as available-for-sale.

Available-for-sale financial assets

Available-for-sale financial assets are non-derivative financial assets that are designated as available for sale or that are not classified as:

- financial assets at fair value through profit or loss;
- held-to-maturity investments; or
- loans and receivables.

(ii) Financial liabilities

Financial liabilities at fair value through profit or loss

A financial liability at fair value through profit or loss is a financial liability that meets either of the following conditions:

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

- It is considered by the Board of Directors as held for trading. A financial liability is considered as held for trading if:
 - it is incurred principally for the purpose of repurchasing it in the near term;
 - there is evidence of a recent pattern of short-term profit-taking; or
 - a derivative (except for a derivative that is financial guarantee contract or a designated and effective hedging instrument).
- Upon initial recognition, it is designated by the Company as at fair value through profit or loss.

Financial liabilities carried at amortised cost

Financial liabilities which are not classified as financial liabilities at fair value through profit or loss are classified as financial liabilities carried at amortised cost.

The above described classification of financial instruments is solely for presentation and disclosure purpose and is not intended to be a description of how the instruments are measured. Accounting policies for measurement of financial instruments are disclosed in other relevant notes.

(o) Entrusted investment contracts

The Company receives money from customers and uses the money to invest in securities on behalf of the customers in accordance with the terms of the entrusted investment contracts. Investments in securities on behalf of customers under entrusted investment contracts together with assets and liabilities in relation to such contracts are recorded in off-balance sheet in accordance with the guidance with Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies.

(p) Revenue and other income

(i) Services rendered

Management fee of investment fund, investment portfolio, redemption fee and subscription fee are recognised in the statement of income when earned. No revenue is recognised if there are significant uncertainties regarding recovery of the consideration due.

(ii) Interest income

Interest income is recognised on a time proportion basis with reference to the principal outstanding and the applicable interest rate.

Form B09a - CTO

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(iii) Revenue from trading securities

Revenue from trading securities is recognised in the statement of income when the Company received Notice of matching for trading securites from Vietnam Securities Depository (for listed securities) and completed asset transferred agreement (for unlisted securities).

(iv) Dividend income

Dividend income is recognised when the right to receive dividend is established. Share dividends are not recognised as financial income.

(q) Operating lease payments

Payments made under operating leases are recognised in the statement of income on a straight-line basis over the term of the lease. Lease incentives received are recognised in the statement of income as an integral part of the total lease expense.

(r) Earnings per share

The Company presents basic and diluted earnings per share ("EPS") for its ordinary shares. Basic EPS is calculated by dividing the profit or loss attributable to the ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS is determined by adjusting the profit or loss attributable to the ordinary shareholders and the weighted average number of ordinary shares outstanding for the effect of all dilutive potential ordinary shares, which comprise convertible bonds and share options.

(s) Related parties

Parties are considered to be related to the Company if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions, or where the Company and the other party are subject to common control or significant influence. Related parties may be individuals or corporate entities and include close family members of any individual considered to be a related party.

Related companies refer to the ultimate parent company and its subsidiaries and associates. Related parties also include funds managed by the Company.

(t) Nil balances

Items or balances required by Circular No. 125/2011/TT-BTC dated 5 September 2011 issued by the Ministry of Finance on promulgation of accounting guidance for investment fund management companies that are not shown in the interim financial statements indicate nil balances.

15. Other long-term assets

Other long-term assets amounting to VND10,000 million related to the transfer of rights and obligations under the Contract on transferring of rights and obligations dated 19 January 2018 between the Company and Vietnam Growth Investment Fund ("VFMVF2").

Accordingly, the Company received rights and obligations transferred from VFMVF2 under the Business Co-operation Contract No. 2407/HTKD signed by VFMVF2 and M&C Joint Stock Company ("M&C") dated 8 November 2007 ("Contract No. 2407") relating to the co-operation in the construction of Saigon M&C Tower Project located at 34 Ton Duc Thang, Ben Nghe Ward, District 1, Ho Chi Minh City ("the Project") of which Sai Gon One Tower Joint Stock Company (formerly known as Saigon M&C Real Estate Joint Stock Company - a subsidiary of M&C Joint Stock Company as of the date of Contract No. 2407) was the investor.

According to Contract No. 2407, VFMVF2 contributed capital for construction of the Project in cash in exchange for a share of the output in form of floor area of apartments when the Project is completed. The Project has been suspended since 2011 and foreclosed by Vietnam Asset Management Company (VAMC) to settle, collect debts of related organisations. Accordingly, the Company has not recognised its share of the output from the jointly controlled asset under Contract No. 2407.

According to Resolution No. 06/VF2-2017/NQDH of the Annual General Meeting of VFMVF2's Fund Unitholders dated 14 December 2017, after the disolution of VFMVF2, the Company would carry out law suit against M&C due to the breach of contract or transfer this asset to third party. In case of the third-party payment or the compensation received by the Company from M&C higher than VND10,000 million, the Company would pay the surplus to the Fund Unitholders of VFMVF2 based on capital ratio after deducting the cost of transferring, lawsuit or collections.

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

The Company is entitled to receive management fees from VFMVF1, VFMVF4, VFMVFB, VFMVEI, VFMVFC and E1VFVN30 as follows:

Fund	Management fees
VFMVF1	1.95% of net asset value per year
VFMVF4	1.93% of net asset value per year
VFMVFB	0.90% of net asset value per year
VFMVEI	1.20% of net asset value per year
VFMVFC	1.20% of net asset value per year
E1VFVN30	0.65% of net asset value per year

In accordance with the charter of VFMVF2, the Company is entitled to receive a monthly management fee in arrears equal to one twelfth of one percent (1%) of charter capital of VFMVF2. The Company also agreed not to receive any monthly management fee from VFMVF2 starting from 13 December 2011 if VFMVF2's net asset value is less than VND10,000. However if VFMVF2's net asset value is subsequently greater than VND10,000, VFMVF2 is obliged to refund all management fee in relation to such period to the Company. For the six-month period ended 30 June 2019, the Company did not recognise management fee from VFMVF2 as the fund had been dissoluted on 7 May 2019.

In accordance with the charter of VFMVF4, the Company is entitled to receive a monthly management fee in arrears equal to one twelve of 1.78% net asset value of VFMVF4. According to 2016 Resolution of Investors General Meeting and 2017 Extraordinary General Meeting dated 13 February 2017, the Company agreed not to receive any monthly management fee from VFMVF4 from 17 March 2017.

- (ii) The Company also entered into entrusted investment contracts under which the Company is entitled to receive management fee and performance fee. The performance fee is received only if certain conditions as stated in the entrusted investment contracts are met. There were no performance fees receivable from entrustors for the six-month period ended 30 June 2019 as the conditions have not been met (six-month period ended 30 June 2018: nil).
- (iii) The Company is also entitled to receive fees from subscription and redemption of fund certificates as below:

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

33. Financial risk management

The Company has exposure to the following risks from its use of financial instruments:

- credit risk;
- liquidity risk; and
- market risk

(a) Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from deposits in banks, held-to-maturity investments and receivables.

(i) Exposure to credit risk

The total of carrying amount of financial assets represents the maximum credit exposure. The maximum exposure to credit risk at the balance sheet date was as follows:

	Note	30/6/2019 VND	31/12/2018 VND
Cash in banks and cash equivalents Held-to-maturity investments Accounts receivable from customers Receivables from management activities Other receivables	(ii) (iii) (iv) (iv) (iv)	48,633,335,028 50,000,000,000 42,095,324,320 10,223,506,503 271,453,859	139,353,785,356 53,390,608,565 8,420,961,115 252,147,888
		151,223,619,710	201,417,502,924

(ii) Cash in banks and cash equivalents

Cash in banks and cash equivalents of the Company are mainly held with well-known financial institutions. The Board of Directors does not foresee any significant credit risks from these deposits and does not expect that these financial institutions may default and cause losses to the Company.

(iii) Held-to-maturity investments

Held-to-maturity investments include certificates of deposits issued by prestigious financial institutions. Board of Directors did not foresee any material credit risks in these certificates of deposits and was not under the impression that these institutions would default and result in losses to the Company.

Form B09a - CTQ

(Issued under Circular No. 125/2011/TT-BTC dated 5 September 2011 of the Ministry of Finance)

(iv) Accounts receivable from customers, receivables from management activities and other receivables

Accounts receivable from customers, receivables from management activities and other receivables mainly include receivables from disposals of investments, receivables from fund management activities, and interest receivables from term deposits and certificate of deposits. Credit risk in relation to receivables from fund management activities is considered minimal as these are receivables from funds under management of the Company. Receivables from disposals of securities represent sale transactions awaiting settlement. Credit risk in relation to unsettled transactions is considered minimal due to short settlement period involved. The Board of Directors believes that those receivables are of high credit quality.

The maximum exposure to credit risk faced by the Company is equal to the carrying amounts of cash in banks and cash equivalents, short-term financial investments, accounts receivable from customers, receivables from management activities and other receivables.

No receivables as of 30 June 2019 and 31 December 2018 were past due or impaired.

(b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due. The Company's approach to managing liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

The financial liabilities with fixed or determinable payments have the following contractual maturities including the estimated interest payments:

(c) Market risk

Market risk is the risk that changes in share prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's results of operations or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimising the return.

(i) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Company's financial instruments will fluctuate as a result of changes in market interest rates.

At the reporting date, the interest rate profile of the Company's interest-bearing financial instruments was as follows:

	Carrying	amount
