INDEPENDENT AUDITOR'S REPORT ON FINANCIAL SAFETY RATIO REPORT

To the Board of Directors Dragon Capital Vietfund Management Joint Stock Company

We have audited the Financial Safety Ratio Report of Dragon Capital Vietfund Management Joint Stock Company ("the Company") as of 31 December 2021 including the explanatory notes thereto which was authorised for issue by the Company's Board of Management on 25 March 2022, as set out on pages 6 to 32.

Management's Responsibility

The Company's Board of Management is responsible for the preparation and presentation of the Financial Safety Ratio Report in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 ("Circular 91") issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations, and for such internal control as the Board of Management determines is necessary to enable the preparation of the Financial Safety Ratio Report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on the Financial Safety Ratio Report based on our audit. We conducted our audit in accordance with Vietnamese Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the Financial Safety Ratio Report is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the Financial Safety Ratio Report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the Financial Safety Ratio Report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's preparation of the Financial Safety Ratio Report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's Board of Management, as well as evaluating the overall presentation of the Financial Safety Ratio Report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Auditor's Opinion

In our opinion, the Financial Safety Ratio Report of Dragon Capital Vietfund Management Joint Stock Company as of 31 December 2021 has been prepared, in all material respects, in accordance with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations.

Basis of Preparation and Restriction on Use

We draw attention to Note 2 to the Financial Safety Ratio Report, which describes the basis of preparation. The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular 91. As a result, the Financial Safety Ratio Report may not be suitable for another purpose. Our report is intended solely for the Company's submission to the State Securities Commission of Vietnam and disclosure of information as required by Circular 91 and should not be used for any other purposes.

Mr. Beat Schurch
Chief Executive Officer

These notes form an integral part of and should be read in conjunction with the accompanying Financial Safety Ratio Report.

1. Reporting entity

(a) Ownership structure

Dragon Capital Vietfund Management Joint Stock Company ("the Company") is a joint stock company incorporated in Vietnam under Investment Licence No. 01/GPDT-UBCKNN issued by the State Securities Committee of Vietnam ("SSC") on 15 July 2003. The Investment Licence/Establishment and Operation Licence and their amendments are valid for 50 years from 8 January 2009 which is the issuance date of the Establishment and Operation License No. 45/UBCK-GP.

As at 31 December 2021 and 31 December 2020, the Company's share capital is VND311,419 million and VND214,772 million respectively.

(b) Principal activities

The principal activities of the Company are to provide securities investment fund management service, securities investment portfolio management service and securities investment consultancy service.

(c) Normal business cycle

The normal business cycle of the Company is generally within 12 months.

(d) Number of employees

As at 31 December 2021, the Company had 148 employees (31/12/2020: 47 employees), of which 29 employees were management personnel, 105 employees were newly recruited and 4 employees were resigned (31/12/2020: 19 employees were management personnel and 1 employee was newly recruited and 1 employee was resigned).

As at 31 December 2021, the Company had 29 employees (31/12/2020: 17 employees) who were qualified for fund and assets management.

2. Basis of preparation of the Financial Safety Ratio Report

(a) Statement of compliance

The Financial Safety Ratio Report has been prepared to enable the Company to comply with the requirements of Circular No. 91/2020/TT-BTC dated 13 November 2020 ("Circular 91") issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations. Accordingly, the Financial Safety Ratio Report and its utilisation are not designed for those who are not informed about the principles and requirements of Circular 91 on preparation and presentation of Financial Safety Ratio Report applicable to securities business organisations in Vietnam. As a result, the Financial Safety Ratio Report may not be suitable for another purpose.

IN

(b) Underlying financial data

The Financial Safety Ratio Report was prepared based on the Company's financial data as of 31 December 2021 and for the year then ended. This Financial Safety Ratio Report should be read in conjunction with the Company's financial statements for the year ended 31 December 2021.

(c) Accounting and presentation currency

The Company's accounting currency is Vietnam Dong ("VND"), which is also the currency used for presentation purpose of Financial Safety Ratio Report.

3. Adoption of new regulations on Financial Safety Ratio Report

On 13 November 2020, the Ministry of Finance issued Circular 91/2020/TT-BTC regulating financial safety ratios and measures for non-compliance applicable to securities business organisations ("Circular 91"). Circular 91 took effect since 1 January 2021, except for Point (đ) of Article 5.5, Point (d) of Article 6.3, Point (k) of Article 10.1, Article 10.10 and Item No 28 of Part VII of Appendix I on Market risk coefficient which will take effect from 1 January 2022.

Circular 91 replaces Circular 87/2017/TT-BTC dated 15 August 2017 issued by the Ministry of Finance regulating financial safety ratios and measures for non-compliance applicable to securities business organisations.

4. Summary of significant policies adopted in the preparation of the Financial Safety Ratio Report

The following significant policies have been adopted by the Company in the preparation of this Financial Safety Ratio Report.

(a) Liquid capital ratio

The Company's liquid capital ratio is calculated in accordance with the requirements of Circular 91 as follows:

$$\label{eq:Liquid capital} \textit{Liquid capital} \quad = \quad \frac{\textit{Liquid capital}}{\textit{Total risk value}} \quad \times 100\%$$

In which, total risk value is the aggregate of market risk value (Note 4(c)), settlement risk value (Note 4(d)) and operational risk value (Note 4(e)).

(b) Liquid capital

Liquid capital is the capital which can be converted into cash within 90 days. The Company's liquid capital includes the following items:

- Owner's investment equity, excluding redeemable preference shares (if any);
- Capital surplus, excluding redeemable preference shares (if any);
- Reserve to supplement charter capital;
- Investment and development funds (if any);

- Financial reserve;
- Other equity funds;
- Retained profits;
- Allowance for diminution in the value of assets;
- 50% of upward revaluation value of fixed assets, if any, in accordance with the prevailing regulations (in case of upward valuation), or subtract the reduction value (in the case downward valuation);
- Foreign exchange difference; and
- Other equity (if any).

Additions to the Company's liquid capital include the following items:

- All increases in the values of investments, financial assets stated at book value excluding securities issued by related organisations of the Company and securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Convertible bonds and preference shares issued by the Company with the original terms to maturity of at least five (5) years, unsecured by assets of the Company, only acquired by the maturity date at the owner's request or acquired on secondary market after notifying the State Securities Commission of Vietnam, stopped paying interest and of which the accummulated interest is transferred to the following year if the interest payment results in the Company's loss and registered with the State Securities Commission of Vietnam to supplement the liquid capital; and
- Other unsecured debt instruments issued by the Company with the original terms to maturity of more than ten (10) years; stopped paying interest and of which the accumulated interest is transferred to the following year if the interest payment results in the Company's loss and registered with the State Securities Commission of Vietnam to supplement the liquid capital.

For debts being convertible into equity and registered with the State Securities Commission of Vietnam to supplement the liquid capital, the Company deducts 20% of original value each year during the last five (5) years before maturity/conversion date into ordinary shares and deducts 25% of the remaining value for each quarter in the last four (4) quarters before maturity/conversion date into ordinary shares. Value of items used to supplement the liquid capital is capped at 50% of the Company's equity.

Deductions from the Company's liquid capital include the following items:

- All decreases in the values of investments, excluding securities issued by related companies of the Company and securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Long-term assets;
- Current assets, including securities issued by a related organisation of the Company and securities with the remaining restricted trading period exceeding 90 days from the reporting date; prepayments; receivables with the payback period or remaining maturity of over ninety (90) days; advances that must be returned within over ninety (90) days; other current assets;
- Asset items subject to qualifications in the audited financial statements (if any). Items with a
 qualified, adverse or disclaimer opinion/conclusion in the audited, reviewed financial statements
 (if any).

When determining the deductions from liquid capital, the Company deducts from the liquid capital an amount equal to the minimum value of the market value of the assets, the book value and the residual value of the obligations (for the assets used as collaterals for the obligations of the Company and third parties) and the minimum value of the market value of the collaterals and the book value (for the assets secured by customers' assets).

(c) Market risk value

Market risk value is the value corresponding to the level of loss which may occur if the market value of assets changes unfavourably. Market risk value is determined in accordance with the requirements of Circular 91 as follows:

Market risk value = Net position * Asset value * Market risk coefficient

In which, net position of any securities at a point of time is the quantity of securities currently held by the Company, after deducting the number of securities lent out and adding the number of securities borrowed in accordance with the prevailing regulations.

The market risk value excludes the market value of following securities and assets:

- Treasury shares;
- Securities issued by related parties of the Company;
- Securities with the remaining restricted trading period exceeding 90 days at the reporting date;
- Matured bonds, matured debt instruments and matured money market valuable papers; and
- Securities being hedged by call warrants or futures contracts, call warrants and call warrants contracts used to hedge the underlying securities.

		+ Purchase price;
		+ Value determined in accordance with the Company's internal methodology.
		In other words:
		Max (Book value; Purchase price; Value determined in accordance with the Company's internal methodology)

(ii) Market risk coefficient

Market risk coefficient is determined for each type of asset in accordance with the requirements of Circular 91 as diclosed in Note 5.

(iii) Increase in market risk value

The market risk value of each asset will be adjusted upward if the Company significantly invests in such asset, except for secured underwriting securities, Government bonds and bonds guaranteed by the Government. Market risk value is adjusted upward in accordance with the following principles:

- Increase by 10% if the value of any investment in shares and debts of an organisation accounts for more than 10% to 15% of the Company's equity;
- Increase by 20% if the value of any investment in shares and debts of an organisation accounts for more than 15% to 25% of the Company's equity; and
- Increase by 30% if the value of any investment shares and debts of an organisation accounts for more than 25% of the Company's equity.

Dividends, coupons, value of priviledged rights of securities (if any) or interest receivables from cash and cash equivalents, transferrable instruments and valuable papers are added to the asset value when determining the market risk value.

(d) Settlement risk value

Settlement risk value is the value corresponding to the level of loss which may occur if a counterparty is unable to settle obligations or transfer assets on time as committed. Settlement risk value is determined at the end of transaction date or contract date as follows:

Settlement risk value before the due date for transfer of securities, cash and liquidation of contract is determined in accordance with the following principle:

Settlement risk value before due date

= Settlement risk coefficient by counterparty * Value of the asset with potential settlement risk

The above principle to determine settlement risk value before due date is applicable for the following contracts:

- Term deposits at credit institutions, deposit certificates issued by credit institutions;
- Securities lending contracts and securities borrowing contracts in compliance with laws;
- Repurchase agreements in compliance with laws;
- Reverse repurchase agreements in compliance with laws;
- Margin loan contracts in compliance with laws; and
- Accounts receivable relating to securities activities.

Overdue settlement risk value is determined in accordance with the following principle:

The principle for determining the overdue settlement risk value shall be applied to:

- Overdue accounts receivable, including matured bonds, valuable papers, debt instruments not yet redeemed on maturity date;
- Assets beyond the time of transfer, including securities of the Company, securities of customers relating to securities brokerage activities; and
- Securities, cash not yet received from securities transaction, term contracts include term deposits at credit institutions, certificates of deposits issued by credit institutions; loans to other organisations and individuals; securities lending contracts and securities borrowing contracts in compliance with laws; repurchase agreements in compliance with laws; reverse repurchase agreements in compliance with laws; margin loan contracts in compliance with laws; and receivables from customers.

(i) Settlement risk coefficient

In accordance with the requirements of Circular 91, settlement risk coefficient by counterparty is as follows:

No.	Counterparty		
1	The Government, issuing organisations guaranteed by the Government and Central banks of countries in the OECD, People's Committee of provinces and cities under Central authority	0%	
2	The Stock Exchanges, Vietnam Securities Depository and Clearing Corporation	0.8%	
3	Credit institutions, financial institutions, and securities trading companies established in the countries in the OECD and with a credit rating satisfying the internal rules of the Company	3.2%	
4	Credit institutions, financial institutions, and securities trading companies established in the countries outside the OECD; or established in the countries in the OECD but with a credit rating not satisfying the internal rules of the Company	4.8%	
5	Credit institutions, financial institutions, securities trading companies, securities investment funds, securities investment companies established and operating in Vietnam		
6	Other organisations, individuals and others.	8%	

In accordance with the requirements of Circular 91, settlement risk coefficient by overdue status is as follows:

No.	Overdue status for settlement/transfer of securities	Settlement risk coefficient
1	0 - 15 days after the due date for settlement/transfer of securities	16%
2	16 - 30 days after the due date for settlement/transfer of securities	32%
3	31 - 60 days after the due date for settlement/transfer of securities	48%
4	Above 60 days after the due date for settlement/transfer of securities	100%

Time for settlement/transfer of securities is in accordance with regulations on derivative securities (for derivative securities), T+2 (for listed securities), T+1 (for listed bonds), or T+n (for transactions agreed outside the trading system).

(ii) Value of assets with potential settlement risk

Value of assets with potential settlement risk in securities borrowing activities, securities lending activities, margin trading activities, and repurchase/reverse repurchase agreements:

No.	Type of transaction	Value of assets with settlement risks	
1	Term deposits, deposit certificates and unsecured loans	Total value of the deposit, deposits certificates, loans, contract value, trading value plus dividend, coupon, right value (applicable to securities) or accrued interest from deposits, loans, fees (applicables to loans).	
2	Securities lending	Max {(Market value of the contract – Value of collateral assets (if any)), 0)}	
3	Securities borrowings	Max {(Value of collateral assets – Market value of the contract), 0}	
4	Reverse repurchase agreements	Max {(Contract value calculated in accordance with purchase price – Market value of the contract * (1 – Market risk coefficient)), 0}	
5	Repurchase agreements	Max {Market value of the contract * (1 – Market risk coefficient) – Contract value based on the selling price), 0}	
6	Margin loans (lending to customers to purchase securities) /other arrangements with similar nature		

Outstanding balance comprises principal, interest and related fees.

Value of collateral assets is determined based on market value. When the market value of collateral assets is not available, the value of collateral assets are determined in accordance with Company's internal methodology.

> Value of assets with potential settlement risk in securities trading activities:

No.	Time	Value of assets with potential settlement risks
	r sale of securities transactions rage activities)	(seller is the Company or the Company's customers in
1	Before the due date for settlement	Nil
2	After the due date for settlement	Market value of the contract (if the market value is lower than the transaction price)
		Nil (if the market value is higher than the transaction price)
	r purchase of securities transaction	ons (buyer is the Company or the Company's customers
1	Before the due date for securities transfer	Nil
2	After the due date for securities transfer	Market value of the contract (if the market value is higher than the transaction price)
		Nil (if the market value is lower than the transaction price)

> Settlement risk values of accounts receivable, bonds and debt instruments in due are the underlying amounts including par value and accrued interest and fees, less actual cash previously received (if any).

(iii) Deductions from the value of assets with potential settlement risk

The Company deducts the value of collateral assets received from counterparties or customers from the value of assets with settlement risk when determining the value of assets with potential settlement risks if the contracts and transactions meet the following criteria:

- The counterparties, customers have collateral assets to secure for their obligations including cash, cash equivalents, valuable papers, transferable money market instruments, listed securities on the Vietnam Stock Exchanges and its subsidiaries (collectively Stock Exchange), Government bonds, or bonds underwritten by the Ministry of Finance; and
- The Company has the right to control, manage, use or transfer the collateral assets if the counterparties fail to settle the obligations according to the contractual schedules.

Value of collateral assets deducted from the value of assets with potential settlement risk is calculated as follows:

Value of collateral assets = Asset quantity * Unit price * (1 - Market risk coefficient)

Asset value is determined in accordance with the requirements of Circular 91 as described in Note 4(c)(i).

Market risk coefficient is determined in accordance with the requirements of Circular 91 as disclosed in Note 5.

(iv) Increase in settlement risk value

Settlement risk values are adjusted upward in the following cases:

- Increase by 10% if the value of term deposits, deposit certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any) accounts for more than 10% to 15% of the Company's equity;
- Increase by 20% if the value of term deposits, deposits certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any), accounts for more than 15% to 25% of the Company's equity;
- Increase by 30% if the value of term deposits, deposits certificates, loans, undue receivables, reverse repurchase agreements, repurchase agreements to any organisation or individual and group of related organisations and individuals (if any), or to any individuals and entities related to such individuals (if any), accounts for 25% or more of the Company's equity.

(v) Netting off value of assets with potential settlement risk

The value of assets with potential settlement risk is netted off if:

- The settlement risk is related to the same counterparty;
- The settlement risk arises from the same type of transactions; and
- The netting off is agreed by the parties in writing.

(e) Operational risk value

Operational risk value is the value corresponding to the level of loss which may occur due to a technical or system error, human error during the operations, shortage of capital arising from expenses, losses from investment activities, or other objective reasons.

The operational risk value of the Company is calculated at the higher of:

- 25% of the Company's operating expenses for the last 12 months prior to the reporting date; and
- 20% of its minimum contributed capital applicable to operating activities of organization in compliance with laws.

Operating expenses include all costs incurred during the period after deducting:

- Depreciation and amortisation expenses;
- Additions to/(reversals of) allowance for diminution in the value of short-term financial investments;
- Additions to/(reversals of) allowance for diminution in the value of long-term financial investments;
 and
- Additions to/(reversals of) allowance for doubtful debts.
