ARTICLE 55. Determination of the Fund's net asset value

1. The fund management company shall determine the net asset value of the fund and the net asset value of a fund unit based on market price, or fair price (in the absence of the market price) of the assets in fund's portfolios.
2. The net asset value of the fund and the net asset value of a fund unit must be certified by the supervisory bank. The value certification must be made in writing, or the access via the electronic information system of the supervisory bank is approved by the fund management company. Within 24 hours after detecting that the net asset value is mispriced, the custodian bank must notify and request the fund management company to make a timely adjustment or vice versa in the case of the supply custodian bank. Service level determining net asset value. Within the limit of time as regulated from the date of detecting that the net asset value is mispriced, the fund management company or the custodian bank (in the case the custodian bank provides asset valuation services net assets) must correct and disclose information in accordance with regulations, and notify the State Securities Commission of the wrong valuation, including the cause of the incident, time of incorrect valuation, legal handling. The content of the notice must be signed for certification by the fund management company and the Custodian bank.
3. The Fund's net asset value must be determined daily on business days and the first day of each month. The net asset value of the fund, the net asset value on a unit of fund must be published in accordance with the provisions on disclosure of information on the stock market. The announcement of net asset value to the investor is made at the next working day of the valuation date for the date valuation period.
4. The fund management company is authorized for the custodian bank to determine the net asset value of the fund, net asset value per block of fund certificates, and net asset value per fund certificate. In this case, the fund management company and the custodian bank must have a mechanism and process for comparing, reviewing, checking, and monitoring to ensure that the determination of the net asset value is accurate and appropriate. Fund Charter, Valuation Handbook and legal regulations.
5. The net asset value of a fund unit is the net asset value of the fund divided by the total number of circulating fund units on the trading day closest to the valuation day. The net asset value shall be rounded according to regulations on accounting for open-ended fund. The residual amount after the rounding shall be included in the fund.

ARTICLE 56. Method of determining the net asset value of the Fund

1. Pricing date:
The valuation date is the working day (of the date valuation period), the weekly Friday (of the weekly valuation period) and the first day of the following month (of the monthly valuation period). In case the valuation date falls on a holiday or holiday, the valuation date is the next working day immediately after, except for the monthly valuation period, which is still the first day of the next month.
In case the fund management company changes the period of determining the net asset value of the fund, the fund management company must seek approval from the Board of Representative before implementing.
2. Method of determining net asset value

The Fund's net asset value (NAV): determined by the total value of assets owned by the DCIP Fund minus the fund's total liabilities at the day before the valuation date. The total liabilities of the fund are the debts or payment obligations of the fund as of the most recent date before the valuation date. The total asset value of the fund is determined by the market price or fair value of the asset (in case of inability to determine the market price or market price with unusual fluctuations as prescribed in the Valuation Handbook and has been approved in writing by the Board of Representative.).

The Custodian Bank will monitor the determination of the net asset price (including total assets and total liabilities) of the Fund and will also inspect and ensure the net asset value on a fund certificate. is the correctness, accuracy and compliance with the provisions of the law, as stipulated in the Fund Charter.

The valuation is specified as follows:

No.	Asset type	Principles of valuation of trading in the market
Money and cash equivalents, currency market instruments		
1.	Cash (VND)	Cash balance on the date preceding the valuation date
2	Term deposit	Principles plus interest receivables as of the day preceding the valuation date.
3	Treasury bills, transferable certificates of deposit, and other currency market instruments	The purchase price plus accrued interest up to the date before the valuation date and according to the guidance in the Valuation Handbook approved by the Board of Representative.
4	Non-interest-paying instruments include bonds, bonds, valuable papers, and other non-interest-paying instruments	Prices listed on the stock exchange's trading system; in case there is no list price, the price is determined according to the valuation method mentioned in the Valuation Handbook approved by the Board of Representative.
Bonds		
5.	Listed bond / Private Placement Corporate Bond (PPC Bond)	The average quoted price (clean price) for outright transactions on the trading system or other name, subject to the internal regulations of the Stock Exchange on the day of the most recent transaction before the valuation date plus accumulated interest. Stock		
9	Shares listed on the Stock Exchange; Shares of public companies registered for trading on upcom system	- Closing price (or other name, subject to the procedures of the Stock Exchange) of the day of the most recent transaction before the valuation date; - Where there is no transaction for more than 15 days up to the valuation date, the priority taken in order from the top down is one of the following prices: The closing price (or other name, subject to the internal regulations of the Stock Exchange) of the date of the most recent transaction within and 90 days before the valuation date; + Purchase price (cost price); + Book value; + The price is determined according to the method approved by Board of Representative. During the time the securities are carrying out the exchange transfer procedure, use the last closing price of the last trading day before the valuation date. In case the shares are approved for listing but there is no first transaction, the valuation as in the case of the first-time public offering is in the process of carrying out the listing procedure.
10	Shares suspended or delisted or deregistered for trading	Prioritizing top-down order is one of the following prices: + Book value; + Face price; + Price determined by the method approved by the Board of Representatives.
11	Shares of the organization in a state of dissolution or bankruptcy	Prioritizing top-down order is one of the following prices: - 80% of the liquidation value of such stock at the date of the latest balance sheet making before the valuation date; -The price determined by the method has been approved by the Board of Representative on a case by case basis.
12	Shares and other contributed capital (including shares offered for the first time to the public are in the process of listing procedures)	- The average value of successful transactions at the last trading day before the valuation date is based on quotes of at least three (03) non-relevant quote organizations and approved by the Board of Representative at the most recent trading day before the valuation date. - In case there are not enough quotes of at least 03 non-relevant quote organizations and approved by the Board of Representative, priority shall be given in top-down order as one of the following prices:

		<ul style="list-style-type: none"> + The average price from two (02) quote organizations is not a relevant person and approved by the Board of Representative; + The price of the most recent valuation period but no more than 90 days before the valuation date; + Purchase price; + Book value; + The price determined according to the theoretical model has been approved by the Board of Representative.
Fund certificates		
13	Listed public fund certificate	<p>Closing price (or other name as prescribed by the Stock Exchange) of the day with the most recent transaction before the valuation date;</p> <p>- Where there is no transaction for more than 15 days up to the valuation date, the price is determined as one of the following prices:</p> <ul style="list-style-type: none"> + The net asset value per unit of such fund certificate is published on the website of the fund management company; or on the Exchange; or on the SSC website as detailed in the Valuation Handbook; + Purchase price (cost price); + Prices determined by other methods approved by the Board of Representative.
14	Unlisted public fund certificates	- Net asset value on a fund unit at the most recent valuation date of that fund certificate before the valuation date of the DCIP Fund.
Derivative securities		
15	Listed derivative securities	The closing price, or otherwise called according to Stock Exchange's internal regulations, of the latest trading day before the valuation date. In the absence of closing price of Stock Exchange as prescribed in this Article, the price is determined based on the daily settlement price/final settlement price (in case of maturity) provided by VSDC to clearing derivative members and published on VSDC website at the latest trading date preceding the valuation date.
16	Listed derivative securities do not trade more than 15 days up to valuation date	The price determined by the method has been approved by the Board of Representative
17	Commitment value of derivative contracts	As prescribed as details in note 3 as below
Other assets		
18	Other investable assets	<p>Depending on the specific case, the price of the assets will be determined according to one of the following methods:</p> <p>Field value is the average price of transactions made successfully at the last trading day prior to the valuation date provided by at least 02 (two) quote organizations; or</p> <p>According to the method approved by the Board of Representative.</p>

Note:

- Accumulated interest: The interest calculated from the latest interest payment date to the date preceding valuation date;
- The book value of a share shall be determined on basis of the latest audited or reviewed financial statements.
- Liquidation value of a share is determined on basis of equity value of the issuer divided by the total number of outstanding shares.
- Day means calendar day.
- In other situations where the valuation method cannot be determined, it shall be applied according to the detailed instructions in the Valuation Handbook approved by the Board of Representative.

Net asset value of fund (NAV) = Total asset – Total liabilities

Net asset value per unit (NAV per unit) equals total net value of fund divides total fund certificates issued at the transaction day before the valuation day, and calculated to 2 non-integer numbers.

3. Commitment value from derivative contracts

- a. Commitment value (global exposure) is the value converted to money which securities investment funds/companies are parties with the obligation of contract implementation. The commitment value is determined upon the market value of outstanding assets, payment risks, market changes and the time necessary for position liquidation.
- b. In calculating the commitment value, fund management company may apply:
 - Net offset principle of derivative position (reverse) for the same outstanding security, for example the purchase position of XYZ securities call option reduces (makes up) the commitment value from the sale position of XYZ securities call option;
 - Net offset principle of derivative position and spot delivery position of the same security, for example the purchase position (holding) of XYZ securities makes up (reduces) the commitment value deriving from the sale position of XYZ securities call option;
 - Other principles according to the international practice ensure the risk administration.

No.	Type of assets	Commitment value
1	Stock option (purchase of put option, sale of put option, sale of call option)	The market value of option position ² is adjusted by delta coefficient of option = Number of contracts x Volume of shares per contract x current market value of share x delta coefficient ³
2	Bond option (purchase of put option, sale of put option, sale of call option)	Market value of option position ⁴ is adjusted by delta coefficient of option = Number of contracts x nominal value x current market price of bonds x delta coefficient
3	Index future contract	Market value of future position = Number of contracts x value calculated on an index point x current index level
4	Bond future contract	Market value of future position = Number of contracts x value of contracts calculated under notional value x market value of the cheapest transferable bonds
5	Other contracts	Upon the model selected by the fund management company, agreed with the supervisory bank and approved by the fund representative board.

Note:

² If the fund holds long position, the market value may be adjusted to increase premium.

³ Delta coefficient is the simple derivative of option price over underlying securities price. In the simple case, the delta coefficient may be considered 1. In case of complex option, the delta coefficient shall be determined by fund management companies, supervisory banks after being approved by the Fund Representative Board.

⁴ If the fund holds long position, the market value may be adjusted to increase premium.

ARTICLE 57. Procedures of valuating the fund's assets

 - Accrue fee & expenses till the date prior valuation date (fund management fee, custodian fee, supervising fee, transfer agent fee, bank fee...);
 - Reconcile cash and securities balances with custodian bank;
 - Collect market prices from Hanoi and Hochiminh stock exchanges, bond yields from Bloomberg or Reuter and other allowed price sources
 - Method of NAV calculation as detailed in Article 56 of this Charter.

ARTICLE 58. Compensation of damages to investors, the fund

DCIP, investors shall be compensated in the case the fund's net asset value is misjudged and the degree of error is achieving 0.75% of the net asset value or more.

1. In case the Fund is under-valuated, the compensation amount to the fund and investors are defined as follows:
 - a. For investors purchasing fund certificates prior to the incorrect valuation period and selling fund certificates during the incorrect valuation period: the compensation amount shall be based on the deviation levels and the number of fund units sold by investors. The compensation amount will be charged to DCIP;
 - b. For the fund: the compensation amount shall be determined based on the deviation levels and the number of fund units sold by the fund during the incorrect valuation period and the number of fund units in circulation. The compensation amount will be charged to the fund management company;
2. In case the fund is over-valuated, the compensation amount to the fund and investors shall be defined as follows:
 - a. For investors purchasing fund certificates during the incorrect valuation period and continuing to hold such fund certificates after the incorrect valuation period: the compensation amount shall be determined based on the deviation levels and the number of fund units purchased and still held after the incorrect valuation period. The compensation amount will be charged to DCIP;
 - b. For the fund: The compensation amount shall be determined based on the deviation levels and the number of fund units issued prior to the incorrect valuation period and repurchased during that period. The compensation amount will be charged to the fund management company.

ARTICLE 59. Principles, criteria for selection and change of the organization providing quotes

1. The fund management company shall select and submit the Board of Representatives to approve a list of quotation service providers to provide a quote for the Fund. The selected quotation service provider must satisfy the following conditions:
 - a. Have function and be licensed to provide quotation service.
 - b. Fully able to provide a quote.
 - c. Not the affiliated persons of the fund management company or custodian bank
2. Events and/or Criteria for changing quotation providers: when incurring one of the followings:
 - a. The quotation provider is not functioned or licensed to provide quotation service.
 - b. The quotation provider becomes related people of the fund management company or custodian bank.
 - c. There is changes of governmental agencies relating to quotation.

Chapter XII

INCOME AND DIVIDEND POLICY

ARTICLE 60. Income of the Fund

Income of the Fund includes:

1. Dividend
2. Bond interest
3. Interest on deposits, certificates of deposit.
4. Difference between the sale and purchase arising from the investment activities of the Fund.
5. Other income, if any, from the investment of properties of the Fund.

ARTICLE 61. Dividend policy

1. To minimize the cost incurred, DCIP funds will not distribute profits.
2. The entire profit of the Fund arising during operation will increase the cumulative net asset value of the Fund.

Chapter XIII

PRICES OF SERVICE, FEES AND EXPENSES

ARTICLE 62. Prices of services paid by investors

1. Prices of service of Subscription
 - Price of service of Subscription is the prices of service that investors pay to the Fund management company when buying a fund unit. This price of service of Subscription shall be payable upon the issuance and counted as a percentage of the subscription amount.
 - Price of service of Subscription is allowed to exceed five percents (5%) of the transaction value. Specific price of service rates must be announced in prospectuses, summary prospectuses, or on websites of fund management companies, distributors or in other forms.
 - Price of service of Subscription is deducted in total amount of subscriptions before calculating amount of allocated fund certificates.
 - In case that the fund management company obtains regulations causing the change in the price of service of subscription during a fixed period of time, the company shall announce on website of DCVFM and distribution agencies or under law. The soonest day to apply the increased price of service rates is the 60th day from the date on which the fund management company announces new price of service rates on its website
2. Price of service of Redemption
 - Price of service of Redemption is the price of service that investors must pay to the Fund management company when selling a fund unit at the next subsequent trading cycles. Such price of service is subtracted from redeemed amount and payable as the fund pays to investors and counted as a percentage of the redeemed amount.
 - Price of service of Redemption fee at trading cycles is allowed to exceed three percents (3%) of the transaction value. Specific price of service rates must be announced in prospectuses, summary prospectuses, or on websites of fund management companies, distributors or in other forms.
 - The holding period is determined by "first in, first out" principle (FIFO).
 - In case that the fund management company obtains regulations causing the change in the price of service of subscription during a fixed period of time, the company shall announce on website of DCVFM and distribution agencies or under law.
 - The soonest day to apply the increased price of service rates is the 60th day from the date on which the fund management company announces new price of service rates on its website.
3. Price of service of Switching
 - Investors shall pay to the Fund management company price of service of switching when placing switching order at trading cycle after the establishment of DCIP.
 - Investors shall not pay any price of service of subscription or redemption for the switching units.
 - Price of service of Switching is allowed to exceed three percents (3%) of the transaction value. Specific price of service rates must be announced in prospectuses, summary prospectuses, or on websites of fund management companies, distributors or in other forms.
 - The soonest day to apply the increased price of service rates is the 60th day from the date on which the fund management company announces new price of service rates on its website

ARTICLE 63. Types of service prices and fees paid by the Fund

1. Fund management service price

- The price of service of management is 1.2% of DCIP's NAV per fiscal year. This price of service is paid for DCVFM to carry out the fund management service for DCIP. This price of service applied for each period will be determined by DCVFM to ensure that the total amount of price of service of management and other fees (if any) paid by the fund to DCVFM comply with laws.
 - The monthly service price is the total of service price charged (accrued) for the valuation periods performed during the month.
 - Price of service of Management of each valuation cycle is calculated as below:

$$\text{Price of service of Management} = \text{price of service of management \% per year} \times \text{NAV on the day prior to the valuation day} \times \frac{\text{actual days in the valuation cycle}}{\text{actual days in a year (365 or 366)}}$$
 - In case that the fund shall value NAV monthly, the monthly management price of service is calculated as below:

$$\text{Monthly management price of service} = \left[\text{price of service of management \% per year} \times \text{NAV on the day prior to the valuation day of the first valuation cycle in the month} \times \frac{\text{actual remaining days from the beginning of the month to the day prior to the valuation day of the first valuation cycle in the month}}{\text{actual days in a year (365 or 366)}} \right] + \text{total management prices of service of the remaining valuation cycles in the month} + \left[\text{price of service of management \% per year} \times \text{NAV on the day prior to the valuation day of the last valuation cycle in the month} \times \frac{\text{actual remaining days in the month}}{\text{actual days in a year (365 or 366)}} \right]$$
2. Custody and supervisory service prices
- The price of supervision and custody services is paid to the Bank for Supervision to provide supervision and custody banking services to the Fund. The service price is calculated on each NAV-based valuation period at the day before the valuation date and is paid monthly. The number of monthly service prices is the total service price charged (set up) for the valuation periods performed during the month.
 - The maximum price of monitoring services is 0.03% NAV/year,
 - The maximum custody service price is 0.05% NAV/year, This service price does not include the maximum price of securities trading services of VND 150,000 per transaction.
 - The above service price does not include non-ordinary non-expenses such as payment costs to the Vietnam Securities custoditory and clearing Corporation, legal costs, postage stamp costs, transaction modification/cancellation fees, share registration fees from unlisted to listed or from convertible bonds to shares, etc....
 - The total price of supervision and custody services is maximum to ensure compliance with the law (if any).
 - The monthly service prices is the total service price charged (set up) for the valuation periods performed during the month.
 - Depository and supervision price of service for DCIP at each valuation cycle is calculated as below:

$$\text{Depository and supervision price of service (not include securities trading price of service)} = \% \text{ price of service of Depository and supervision (year)} \times \text{NAV on the day prior to the valuation day} \times \frac{\text{actual days by calendar of the valuation cycle}}{\text{actual days in a year (365 or 366)}}$$
 - In case that the fund shall value NAV monthly, the monthly Depository and supervision price of service is calculated as below:

$$\text{Monthly Depository and supervision price of service (not include securities trading price of service)} = \left[\% \text{ price of service of Depository and supervision (year)} \times \text{NAV on the day prior to the valuation day of the first valuation cycle in the month} \times \frac{\text{actual remaining days from the beginning of the month to the day prior to the valuation day of the first valuation cycle in the month}}{\text{actual days in a year (365 or 366)}} \right] + \text{total Depository and supervision prices of service of the remaining valuation cycles in the month} + \left[\% \text{ price of service of Depository and supervision (year)} \times \text{NAV on the day prior to the valuation day of the last valuation cycle in the month} \times \frac{\text{actual remaining days in the month}}{\text{actual days in a year (365 or 366)}} \right].$$

Details of prices of service and payment term are regulated in the service agreement between FMC and the service provider.
3. Fund administration price of service
- The price of fund management services is the service price paid by the DCIP Fund to the Fund Management Service Provider to the Fund.
 - The maximum fund management service price is 0.04% NAV/year

- The price of financial statements for the fund is VND 70,500,000 per year equivalent to VND 5,875,000 per month (excluding VAT (if any)).
 - The monthly payable price of service is the total price of service calculated (accrued) of valuation cycles in a month.
 - Fund administration price of service and the service price of service executing Fund financial statement for DCIP at each valuation cycle is calculated as below:
 Fund administration price of service = % fund administration price of service (year) x NAV on the day prior to the valuation day x actual days of the valuation cycle/ actual days in a year (365 or 366)
 The service price of service executing Fund financial statement = 5.875.000 VND/ actual days in a month x actual days of the valuation cycle
 - In case that the fund shall value NAV monthly, the monthly fund administration price of service is calculated as below:
 Monthly fund administration price of service = [% fund administration price of service (year) x NAV on the day prior to the valuation day of the first valuation cycle in the month x actual remaining days from the beginning of the month to the day prior to the valuation day/ actual days in a year (365 or 366)] + total fund administration prices of service of the remaining valuation cycles in the month + [%fund administration price of service (year) x NAV on the day prior to the valuation day of the last valuation cycle in the month x actual remaining days in the month/ actual days in a year (365 or 366)].
 Details of prices of service and payment term are regulated in the service agreement between FMC and the service provider.
 The total price of supervision and custody services, the monthly minimum fund management service price and details of the amounts specified in the contract of custodian, supervision and fund administration services.
4. Transfer agent service price
- The transfer agent service price is the price paid by Fund to the Organization providing the Transfer Agent service. The price of transfer agent services is announced in the Prospectus, Summary Prospectus, on the website of the Fund Management Company, distribution agent or in other forms. The formula for the transfer agent service at each valuation period in the month is determined as follows:
 Transfer agent service price for valuation period = Monthly transfer agent service price / actual number of days of month x number of days according to the actual calendar of the valuation cycle
 - Details of prices of service and payment term are regulated in the service agreement between FMC and the transfer agent service provider. In addition, the fund will pay for the costs associated with exercising rights for Transfer agent as agreed in the agreement.
 - Depending the circumstances, Fund management company can change the ratio limit of total expense ratio of funds (“TERo”) (after subtracting the related expenses of investment execution) in order to best support the Investros. Details of TERo (if any) and the date of effects shall be updated in prospectus and announced on the fund management company’s website.

ARTICLE 64. The fund’s expenses
